

SULLIVAN CONSERVATION COMMISSION
Sullivan Town Hall
Feb. 19, 2020

Present: Wendy Byrne, Wendy Pelletier, Chip Woodbury and Becky Cummings.

The minutes of the January meeting were accepted as read. Chip made a motion to accept; Wendy P. seconded, all in favor.

It was noted that Eric was unable to attend tonight's meeting but he wondered (via email) if people would be interested in a trail cam program given by Eric Aldrich of the Hancock Wildlife Cam program. All present thought it would be an excellent program and would like Eric to look into it, perhaps for a May Saturday afternoon program. This program would be of interest to kids, too.

This coming Saturday, Feb. 22nd, was tentatively scheduled for a program on alternative energy given by Bob Switzer and possibly Paul Bolduc. Roger originally spoke with Switzer but no recent confirmation was given for this Saturday, so it is assumed it is off.

Wendy B. will speak with people at NH Saves (from Eversource) to see about setting up a program sometime in April. Suggested dates included April 4, 8 and 25. The Nelson Agriculture group has reserved many coming Saturdays for their programs so it was decided the Sullivan program could also be some evening.

Town Clean-up Day will be on May 2.

Chip made a motion to adjourn; Wendy P. seconded, all in favor. Meeting adjourned at 7:02 pm.

Respectfully Submitted,
Becky Cummings
